

Dear Legislatures and Senators,

I strongly oppose SB 443.

When government becomes the tyrants, it is time to vote the tyrants out. We can see clearly that this is government overreach by a small group of Senators that seek to control the peasants.

This committee has no right to any of my or others private Federal or State income data. The reasons that you give are clear fabrication and are unnecessary.

That you would even raise such a bill, shows the clear corruption and power grab in this current government.

Thank-you

Dr. Linda Dalessio EdD ACNP, BC
